HOUSTON – If there was one thing folks had to keep in mind heading into the Houston Open, it was the weather. The weather was awful. With rain and wind expected for the entire week, Houston was expected to be cold and rainy all week. The forecast changed Friday afternoon, with the forecast for the weekend looking promising. But that didn't help a lot. The rain came to the scene around noon, a sudden and heavy downpour that would last for hours. The rain lasted until the weekend, but the cold remained. On Sunday, the weather was clear and sunny and, by Sunday evening, the heat had finally set in. Fans were left with a Saturday on which to play, and a Sunday on which to see the players. The weather took a toll on the field and the players. Jordan Spieth, the world No. 1, struggled all week long on the tough Houston golf course, finishing tied for 23rd place, four strokes behind the winner. Spieth wasn't the only player who struggled. Only three players broke par all week, with No. 2 Adam Scott and No. 3 Jason Day just beating the field by one stroke. All three players were in the top 20. The 22-player field included Rory McIlroy, Steve Stricker, Francesco Molinari, Kevin Kisner and Charley Hoffman. A player trying to win a major championship at home can feel the pressure, and so can the fans. It was clear fans came to watch, but the weather made the weekend a tough one for many. It was cold and rainy on Saturday, and cold and sunny on Sunday. But the weather didn't keep anyone from getting their tickets. Fans who got tickets still crowded courts around the Convention Center on Saturday, waiting for hours in the cold and the rain to get in. Among those who waited, Michael Comisar from Rosenberg, Texas, was eager to check out the action. "It's been too long since I've been to a major championship," he said. "It was cold, but it's the weather. The main thing is that it's good for the athletes, but it's cold." Comisar said he came to watch the tournament, and also to see the celebrity factor. "I think
