

TazerCraft Mod - TazerCustom Mod (1.7.10) Hello everyone! This is my first post on this forum and it's about a mod I make on Youtube channel... <https://www.youtube.com/channel/UCnWt3eXzmQfZkTZKtZmCvg> , which is a new and fresh mod that will bring to the game a huge number of new weapons, various maps, weapons and much more. Of course, this mod is not something new or revolutionary in terms of weapons. However, I believe that it has many interesting features. And so, let's start describing it.
