\* Photoshop Tutorials are not all created equal. Look to high-quality, well-reviewed sites for tutorials and other free training. \* Photoshop Online offers professional courses for advanced users. \* Photoshop University offers a three-course system for \$99. With Photoshop, you also need to know how to handle bitmap image files and create vector graphics. Get a handle on that first. # Introduction This chapter is a quick overview of the Photoshop file format. We'll tell you what you need to know to get up and running with Photoshop, and then we'll look at some of the more advanced topics you may find interesting. ## What's in a file? Photoshop uses the same basic file format for all its files. We'll divide the file format into a few parts. \* \*\*Markup\*\* : This is where the data are stored for the layer content. \* \*\*Layer(s)\*\* : These are the layers of information that make up the image. \* \*\*Presets\*\* : These are the \_settings\_ (colors and effects) applied to a layer. They are a way to create a pre-defined look. \* \*\*Master\*\* : These are any layers that apply to the entire document, like a background or a clipping mask. \* \*\*Document History\*\* : These are the entries of all actions (editing options) applied to the document, including multiple versions of the same layer, masks, and so on. We'll look at each of these in more detail, starting with the markup section.

There's a reason why Idaho's Republican-led House is studying ways to eliminate the Unemployment Insurance system. The time for an independent investigation into the program's budget is over. It's time for a response from the people who can turn this mess around. About \$1 billion has been stripped from Idaho's unemployment fund. There's no justification for this. And there's little doubt the blame for this wacky idea belongs with the Republican majority in the House. Tuesday, Rep. John Kipp, R-Magic Valley, said he was shocked by the state's "free ride" for unemployed Idahoans. His proposal on the House floor would prohibit the state from paying out unemployment benefits if any unemployed Idahoans have jobs that pay minimum wage. Why? According to the bill, Idaho's unemployed will be so broke the \$15 an hour minimum wage should be enough to help them stay afloat. But that's wrong. It's not their fault the minimum wage hasn't kept up with the cost of living. It's not their fault there are fewer jobs. It's not their fault Idaho has the highest unemployment rate in America. "I am not opposed to holding individuals responsible for their own failures. I am opposed to holding Idaho and its hard working taxpayers responsible for the mismanagement of a federal program," said Kipp. "I am proud to live in a state that has the highest per capita unemployment in the country, but we're not going to use our tax dollars to prop up those we feel would be better off working." House Majority Leader Mike Moyle disagreed with Kipp's bill. "We are all Democrats and Republicans here. We're all Idahoans," he said. (Yes, Moyle is also a Democrat. But the other Republicans in the Idaho House are also Democrats so you know this bill has strong Democratic support.) "We should not pass the buck, we should not punish the jobless," Moyle said. "Most of them are suffering for the most part." The people who have jobs should be forced to pay for those who can't find work. Tax cuts for the wealthy and cuts to education and health care are being passed to pay for more unemployment checks for the poor. That's nothing but a scam. The House should pass Kipp's bill. The people who have jobs shouldn't be punished for the failures of the government and the federal government should step up
