Inspired by the first novels and poetry of Edgar Allen Poe, Hand of Horzasha tells the story of a mysterious town inhabited by monstrous people. Travel through the Gibal Valley, and meet seven families in charge of seven districts of the village. The fate of all citizens is in their hands, which often leads to conflicts, disputes, and scurrilous rumors. All creatures in Hand of Horzasha communicate with a series of hand signals and gestures. Find and befriend various monsters, ranging from adorable to deadly. Some will even give you "underground texts" upon which to base your opinion of the community and its officials. You will also meet humans in this monster-filled town: city dwellers, travelers, lost kids, and others in need of help. Each of them has a troubled past that they are trying to bury and a dark secret hidden under their skin. In the city, living space is scarce so everything will ultimately be determined by your relationships with the powerful families. Hand of Horzasha shares some features with visual novels like Clannad and A-Cat's Diary. However, despite its lighthearted appearance, it contains a great deal of drama that you can use to shape your decisions and gain access to unread options. Hand of Horzasha is rated PG in the United States and Canada for mild themes and some intense imagery. Be sure to check out the free demo to unlock all of the game's extra features and enjoy an initial look at the town of Randall. Mount Ettrup is a sandbox adventure game. Use your excavator and build whatever you want. There are no time limits or story. You can just play the game and have fun. However, after one or two days of game play, the excavation area gradually starts shrinking. It is the effect of the sand being reclaimed back into Ettrup. When the excavation area starts shrinking, the game enters an optional "Sand Recycling" mode which can only be accessed through item bundles and free time. When this mode is active, you can keep digging and keep the excavation area stable. In this mode, you will earn some money for using your excavator. You can also buy items from a vending machine and repair your excavator when it runs down. Items that you can buy with the money you earned will depend on the amount of money you have. You can also design your own item and add it to the game. When you have enough money, the vending machine will sell every single item that
