Controlla il seguito controllando..Q: Can you deploy a PrimeFaces Extension component (ie. xtype="poll") from a Widget? I have a widget that holds up to 4 PrimeFaces extension components (xtype=poll). The extension components are defined on the page only. Since they are used only once, is it possible to deploy them to production? I am fine with using webapp deployment in Tomcat. Thanks A: The poll widget already is included in the PrimeFaces distribution, which is a bundled one. So you can use it on production as much as you want. 5 9 9 4 6 5 6 4 1 . 3 9 A d d t o g e t
