from the above example, i will get all the first matchings
when i ran the query. Is it possible to search the whole
string and return one match only without spaces between
characters? I don't know if it is possible and how to

combination of LIKE and REGEXP WHERE col REGEXP '|' AND col LIKE '%|' Note that this will return all rows where
col contains a quote. I.e. the query below will return all

Men politikerne og socialfagfolkene er glade for denne "glede-til-at-deltagere" - politisk nødt til at anbefale det - som i den grad vil tage et centralt ansvar for de børn, kommunen hjælper. Og de er glade for den gode nyhed.
